Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: 101 rejection made on 03/01/2007 has been withdrawn in view of applicant's amendment. Applicant argument wherein resetting is not taught by Bianco is not persuasive because applied reference Bianco discloses an electrical circuit having a plurality of subcircuits and a set-scan test input for testing said subcircuits in a set/scale test mode and some of subcircuits being sensitive subcircuits (see claim 1 and abstract). Bionco teaches inhibiting set/scale access to sensitive subcircuits by erasing PROM that contains an address for each sensitive subcircuit (see col. 6 lines 17-31).
